

Decorative wheel valve caps

000 071 215C

Universal

Material: Brass with nickel surface finish

Attractiveness | Protection | Ergonomic shape | Quality

By using the wide range of ŠKODA Genuine Accessories you can draw individual style of your car to perfection. Fit the already **attractive light alloy wheels** of your car with **decorative valve caps**. The caps **protect** the valves from moisture, dust and other impurities. Thanks to their specific shape, they are **easy to grab and tighten**. The material used, i.e. brass with nickel surface finish, lends the valves **strength and dimensional stability**. The valve caps carry the new ŠKODA logo. After fitting the decorative valve caps, we recommend checking the wheel balance at an authorised ŠKODA service partner.

Fitting time: 20 TU

Contents of the kit: Wheel valve caps - 4, user manual

Maintenance: Standard soap-based cleaning agents Do not lubricate with grease or oil.

Warranty: 24 months

Weight: 19 g including packaging
