

## Alloy wheel HELIOS

**3V0 071 497 8Z8**

ŠKODA Superb (3V)

**Material:** Light metal alloy

**Colour:** Silver Metallic

### Design | Elegance | Quality | Durability

The **Helios** wheels for the ŠKODA Superb model combine unique **design** with great **functionality**. Apart from the visual side, they **positively influence the driving properties**. They also contribute to a better sense of driving thanks to the reduction of unsprung weight. The favourable mass distribution has a beneficial effect of lowering the inertial forces of the rotating wheel, improving the **dynamics of both acceleration and braking**. Cast as one piece using aluminium and several other light metals, these **elegant wheels** with five massive spokes have undergone ŠKODA **homologation tests** to test their **resistance** to corrosion, climatic influences and driving strain. With genuine design and simple elegance, these wheels are a shiny example of combining quality, functionality and aesthetics. The option of using the Helios wheels for ŠKODA Superb needs to be verified in its main registration card. Sediment dirt that latches on the wheels is easily removed with cleaning agents, which are part of the offering of the ŠKODA Genuine Accessories portfolio. It is advisable to purchase these along with the wheels.

**Wheel dimensions:** 6.5J x 17" ET 41

**Tyres:** 215/55 R17

**Specified for combination with snow chains:** Yes

**Fitting time:** 40 TU

**Contents of the kit:** Alloy wheel including the ŠKODA central cover, installation manual

**Maintenance:** Rim Cleaning Gel ŠKODA / HBA 096 038. Don't use abrasive cleaning agents, solvents or steel wool.

**Warranty:** 24 months

**Weight:** 11.7 kg
