

Alloy wheel ZEUS

3V0 071 497A HA7

ŠKODA Superb (3V)

Material: Light metal alloy

Colour: Anthracite Metallic

Design | Discreet elegance | Quality | Durability

The overall appearance of your car is perfectly underlined by the alloy wheels from the ŠKODA Genuine Accessories portfolio. Apart from the visual side, these wheels **positively influence the driving properties**. **They also contribute to a better sense of driving** thanks to the reduction of unsprung weight. This also fully applies to the Zeus 17-inch wheels that feature **discreetly elegant-style** design, dominated by five massive spokes. These wheels have passed **rigorous homologation tests** according to strict standards of ŠKODA AUTO to test their resistance to corrosion, climatic influences and driving strain. The option of using sixteen-inch wheels for your ŠKODA Superb needs to be verified in its main registration card. Sediment dirt that latches on the alloy wheels is easily removed with cleaning agents developed for this very purpose, which are part of the offering of the ŠKODA Genuine Accessories portfolio.

Wheel dimensions: 7J x 17" ET 40

Tyres: 215/55 R17

Specified for combination with snow chains: No
