Travelling comfort | Compact coffee machine | Simply Clever solution

Do you like good coffee? Then you will surely welcome the **simple, lightweight, elegant** and above all compact **itinerary coffee machine** offered by the ŠKODA Genuine Accessories portfolio. With this coffee machine, you can enjoy your favourite espresso wherever you want to. Just pull over at a suitable place, shift to neutral and pull the handbrake. The engine needs to keep running to help supply the coffee machine with power. The coffee machine can be plugged into the 12V (lighter) socket via its integrated cable and is designed so that it fits **into a standard drink holder**. Other than that, you only need some water and your favourite coffee in E.S.E. (Easy Serving Espresso) capsules to make yourself a drink. Each capsule contains precisely dosed, optimally ground and properly machine-pressed coffee. Thanks to the patented espresso preparation system based on high pressure and proper extraction, coffee from the travel coffee machine has an **irresistible aroma and great taste**.
