

Alloy wheel HELIOS

3V0 071 497B FL8

ŠKODA Superb (3V)

Material: Light metal alloy

Colour: Black Metallic

Design | Elegance | Quality | Durability

Coming in elegant Black Metallic **colour**, the seventeen-inch **Helios** wheels are offered specifically for the ŠKODA Superb model within the ŠKODA Genuine Accessories portfolio. Apart from their visual **attractiveness**, they also contribute to the **driving** properties. **The sense of driving is improved** thanks to the reduction of unsprung weight. Like all other wheels, the Helios wheels have passed **rigorous homologation tests** according to strict standards of ŠKODA AUTO, verifying their resistance to corrosion, climatic influences and driving strain. The Helios five-spoke wheels are coated with a layer of extremely hard, heat-resistant paint that protects the wheel from both mechanical damage and wind conditions. The option of using the Helios wheels for ŠKODA Superb needs to be verified in its main registration card. Sediment dirt that latches on the wheels is easily removed with cleaning agents, which are part of the offering of the ŠKODA Genuine Accessories portfolio. It is advisable to purchase these along with the wheels.

Wheel dimensions: 6.5J x 17" ET 41

Tyres: 215/55 R17
